PROJECTS

IDOC - DOCUMENT MANAGEMENT SYSTEM (2021) - ONGOING PROJECT

"IDOC" is a document management system that is implementing for our second-year software project. iTerminal Technologies is the industry partner who was given that project. It includes documents uploading, editing, and sharing, user management, document version controlling, dynamic workflow management, document tag System, indexing and keyword searching, and document security.

Role: Full-Stack Developer

Technology Used: React, Spring Boot, MySQL

PROJECTS (Con...)

SMART SAFE LOCKER (2020-2021)

As our first-year hardware project, I and my team made a smart safe locker. This device has a fingerprint sensor and when the user keeps his fingerprint on it then an OTP code will be sent to the user's phone using the GSM module. After entering the OTP code user can unlock the locker. It can detect fire also.

Role: Coding part of temperature sensor

Technology Used: ATmega32

DIGIVENTRY (2021) <https://digiventri.web.app/>

"DIGIVENTRY" is a simple inventory management system web application that prepares inventory ledgers using FIFO and WAC methods. This application uses the entries entered by the user to create the inventory ledger.

Role: Front-end Developer

Technology Used: React, Firebase

ACTIVITIES

COMPETITIONS

HackX (2021) - Semi Finalist

HackX is an Inter-University Innovative start-up challenge that was organized by the University of Kelaniya.

HackMoral 4.0 (2022) - Participant

Participated this event, that was organized by INTECS of the Faculty of Information Technology, University of Moratuwa.

Thinkwave 3.0 (2021) - Participant

Participated this event, that was organized by AISEC of the University of Moratuwa. It is an ideathon competition for youth entrepreneurs.
